

SCAFFOLDING CATALOGUE

Any safety provisions as directed by the appropriate governing agencies must be observed when using our products.

The images in this document are snapshots of situations at different stages of assembly, and therefore are not complete applications. For the purpose of safety, they should not be deemed as definitive.

The loads featured in this document, related to the parts of the product, are approximate.

Our equipment is designed to work with accessories and parts produced by our company only. Combining such equipment with other brands is not only dangerous without having made all corresponding verifications, it also voids any or all of our warranties.

The company reserves the right to introduce any modifications deemed necessary for the technical development of the product. All scaffold item weights have been rounded up to 0.50kg and all scaffold fittings weights have been rounded up to 0.20kg.

NOT BINDING DOCUMENT
